announcement of accelerated industrialization of the country as the fourth national goal, the number of enterprises and workshops is growing nationwide.

One of the promising areas of cooperation may be the creation of joint ventures in Tajikistan, taking into account the gradual introduction of the "green economy"

Moderator:

Kabir Sherali, Minister of industry and new technologies of the Republic of Tajikistan

Speakers:

2. Topic: Tajikistan is a place of "green" energy production

(Location: _____»)

Tajikistan occupies one of the leading places in the world in terms of hydropower reserves, and its capacity is estimated at 527 billion kW/h.

At the same time, the contribution of the Republic of Tajikistan to the prevention of the warming process is evaluated positively, since the share of Tajikistan in the global volume of waste is at the lowest level, only 0.0003 percent.

It should be noted that Tajikistan currently produces 98 percent of its electricity from hydroelectric power plants and ranks sixth in the world in terms of percentage production and use of "green" energy.

Moderator:

Juma Daler, Minister of Energy and Water Resources of the Republic of Tajikistan

Speakers:

11:00 – 12:00

3.Topic: IT parks are the driving foundation of the digital economy and ensure the growth of the financial market

(Location: _____»)

The steady development of the information and communication technology industry through the creation and large-scale operation of technology parks makes a significant contribution to the integration of science and production and the widespread introduction of innovative products.

The Republic of Tajikistan is adopting strategic documents for the development of the digital economy and is taking steady steps in this direction.

The scope of financial coverage is changing rapidly, and currently new participants are starting to operate on this route, including social networks, telecommunications companies, commercial banks, modern technologies and various types of credit packages are replacing traditional equipment in the financial market, including lending to legal entities without using the services of financial institutions.

Moderators:

Zavqizoda Zavqi, Minister of Economic Development and Trade of the Republic of Tajikistan

Kholiqzoda Hokim, Chairman of the National Bank of Tajikistan

Speakers:

11:00 – 12:00

11:00 – 12:00

4. Topic: ECO-agriculture and tourism

(Location: _____»)

The climate and conditions of Tajikistan are useful for the development of various branches of agriculture, animal husbandry and poultry farming.

Tajikistan today has the opportunity to become a reliable supplier of high-quality and environmentally friendly food products, which is very important in the conditions of a growing world population and constantly changing problems with access to food.

Tourism, including ecological, health, mountain and hunting tourism, are also areas in which we are ready to invest today.

Tajikistan has a unique nature, historical and cultural monuments and other opportunities for the development of tourism, especially mountain tourism.

Moderators:

Hakimzoda Qurbon, Minister of Agriculture of the Republic of Tajikistan

Muminzod Kamoliddin, Chairman of the Tourism Development Committee under the Government of the Republic of Tajikistan

Speakers:

5. Development of the private sector and pharmaceutical

industry in the Republic of Tajikistan

(Location: _____»)

There are more than a thousand types of medicinal plants in Tajikistan, which are annually exported abroad for certain funds as raw materials for the production of medicines.

At the same time, the countries of the region, including Tajikistan, are heavily dependent on the import of medicines, and by creating industrial pharmaceuticals in the country by attracting investments, can make the industry one of the engines of the innovative development of the region.

11:00 – 12:00

Moderators:

Jamoliddin Abdulzoda, Minister of Health and Social Protection of the Population of the Republic of Tajikistan

Speakers:

<p>11:00 – 12:00</p>	<p>(Location: _____»)</p> <p>Using favorable weather conditions and establishing the production of competitive products and import-substituting products, Tajikistan has great export opportunities. Increasing the export potential is one of the promising areas of economic development. On this basis, the solution of logistical problems and the search for new export markets will contribute to the development of this industry. It should be noted that the development of the transport industry, in turn, is a means of promoting domestic and foreign trade and is the main factor in the development of international economic, trade and transit relations of the country. Therefore, since the first stage of independence, Tajikistan has identified the issue of turning the country into a transit country as one of the development priorities, the goal of which has been fully realized.</p> <p>Moderators:</p> <p>Azim Ibrohim, Minister of Transport of the Republic of Tajikistan</p> <p>Sirojiddinzoda Bahridin, Director of the Export Development Agency of the Republic of Tajikistan</p> <p>Speakers:</p>
